PRODUCT DESCRIPTION

The GBC H500 pouch laminator creates commercial quality laminations in a 13 desktop system. The GBC H500 pouch laminator uses professional preformatted film pouches for laminating items from cards to large documents and menus. Simply slip the object into the carrier and feed it into the machine. The GBC H500 pouch laminator will automatically adjust the temperature or you can fix the setting with the keypad control. There are six preset speeds for laminating cards to large documents and menus. The LCD readout display notifies the user of its operations. With this machine it is easy to laminate film weights from 1.5 mil to 10 mil, foil transfer and mount. The GBC H500 laminator can also apply no heat lamination for heat sensitive materials. This model is extremely durable and easy to use.
