PRODUCT DESCRIPTION

The GBC 4500 pouch laminator has a faster throughput and nine speed controls for precise laminating. The GBC 4500 pouch laminator provides quality lamination in a 18 desktop system which uses professional preformatted film pouches for laminating items from cards to large documents and menus. Simply slip the object into the carrier and feed it into the machine. The GBC 4500 pouch laminator will automatically adjust the temperature or you can fix the setting with the keypad control. The LCD readout display notifies the user of its operations. It applies laminate 1.5 mil to 10 mil thick, foil transfers, mounts, creates mouse pads and laminates without heat; all possible with this machine. Optional feed and exit trays are available.
