PRODUCT DESCRIPTION

Banner American Easy Lam 27 Inch Wide Laminating Machine P N BA EZ27 Easy to Use...and at a Low Price The Banner American Easy Lam 120 V 27 Inch Roll Laminator is ideal for medium to high volume laminating applications. It is easy to use and its extra width gives you versatility for all your lamination projects. The easy to use design makes the operators job simpler with design features such as Easy Loading Plenty of clearance is allowed for film loading, No more burnt knuckles when HOT Loading Easy To Use Controls Since pressure speed and roll tension are preset, the Laminator requires very little instruction to use. Adjustable Heat Knob Heat is easily adjustable for different materials Reverse Switch Quickly Clears any wrap arounds Heavy Duty DC Motor For long term durability Easy Lam is designed to laminate with either .0015 inch or .003 inch gauge film and can operate at speeds up to 4 feet per minute. The 27 inch width capacity allows you to laminate those items that cant be accommodated in a conventional 25 inch machine, and uses a maximum film thickness of 3mm. It has a 1 Inch maximum fil core size. The 2 rollers work to consistently laminate every application with professional results. There are pre set controls for the pressure, speed, and roll tension and the reverse switch helps clear jams, as well as prevent wrap arounds. The extra clearance will help easily load rolls, prevent burned knuckles when hot loading, and allow for lamination applications that are impossible in a conventional 25 roll laminator. It is UL listed and CSA approved. Recommended For The Banner American Easy Lam 27 inch Roll Laminator is the ideal machine for any school lamination application. It was designed with teachers and professors in mind so it is safe for schools and easy to use. Features Ease of operation is the main feature of the Easy Lam Roll Laminator.
