PRODUCT DESCRIPTION

The SEAL Image 62 Plus laminator offers predefined control settings, easy material loading and other user friendly features that make sure new users will have its operation down to a fine art within minimum time. Capable of mounting, laminating and encapsulating up to 60 digital prints, the Image 62 Plus laminator can operate with a wide range of materials, including the popular Thermashield range of films. When finishing inkjet prints the Jet Guard range is recommended, which operates at lower temperatures than traditional films and are the ideal solution for inkjet prints. Operating features include swing out supply shafts with unique auto grip for easy loading and positioning of materials, automatic upper take up shaft for removing release liners and swinging in feed table for easy material loading.
