PRODUCT DESCRIPTION

The VacuSeal 2160 formerly the 4468H Vacuum Press wide format laminator has a working capacity of 44 x 68 inches for framing. Mounting, and laminating display materials or texturing artwork. The VacuSeal 2160 Laminator controls all 4 elements of dry mounting in one step by having a digital panel located near the lid that controls time, temperature, and pressure of the vacuum. Moisture is automatically reduced during the first 30 45 seconds while the vacuum is creating pressure around the mounting materials. The VacuSeal 2160 also has the capability to do cold mounting for heat sensitive materials. You can process several pieces of varying sizes and thickness simultaneously to speed production. The digital microprocessor technology and touch pad controls assure quick, efficient and easy operation.

PRODUCT FEATURES

PRODUCT SPECIFICATION

Max. Press Width	44 in.
Max. Press Length	68 in.
Pressure	13 psi
Voltage	230V volts

DIMENSIONS

Weight:	205.00 lbs.
Width:	76.25 inches
Length:	56.50 inches
Height:	6.50 inches
