PRODUCT DESCRIPTION

The VacuSeal 2180 formerly the 3648H Vacuum Press Dry Mount laminator has a working capacity of 36 x 48 for framing, mounting, and laminating prints, photos, posters and other artwork. The VacuSeal 2180 controls all 4 elements of dry mounting in one step by having a digital panel located near the lid that controls time, temperature, and pressure of the vacuum. Moisture is automatically reduced during the first 30 45 seconds while the vacuum is creating pressure around the mounting materials. You can process several pieces of varying size and thickness simultaneously to speed production. The VacuSeal 2180 vacuum press laminator has the capability to cold mount heat sensitive materials. The digital microprocessor and touch pad controls assure quick, efficient operation.

PRODUCT FEATURES

PRODUCT SPECIFICATION

Max. Press Width	36 in.
Max. Press Length	48 in.
Pressure	13 psi
Voltage	230V volts

DIMENSIONS

Weight:	130.00 lbs.
Width:	56.25 inches
Length:	47.50 inches
Height:	6.50 inches
